## Presentations

### **Acrylic v. Silicone: Understanding the Differences between Two Common Cool Roof Coating Technologies**

*This course compares the features and benefits of acrylic and silicone cool roof coating systems in order to help specifiers and consultants understand and determine best practices for both technologies. The objective is to understand the similarities, differences, benefits, and limitations of acrylic and silicone cool roof coatings, as well as to compare the performance of the two systems based on ten key performance properties.*

### **Health, Safety, and Welfare of Daylighting Design**

*This course will provide an overview of the following:*

- *Daylighting Defined*
- *Understanding Modeling & Design Tools*
- *Good v. Poor Daylighting Design*
- *Quality Daylighting Applications*
- *Benefits and Promotion of Health and Productivity*
- *Daylighting Design Parameters*
